

MARKETING STRATEGY · 90-DAY PLAN · 2026

REACH ON AUTOPILOT.

- An **operator-brand** engine across every short-form platform
- **Three markets**, tracked separately: Hillsdale · Cleveland · South Bend
- **Autonomous** — generate, approve, auto-post · measured end-to-end

Prepared by Jake Horvitz · Building communities, profitably.

THE BRIEF

MARKET THE OPERATOR — QUIETLY, AND ON OUR TERMS.

- **Every platform** — short-form video, one clip posted everywhere.
- **Minimal site** — no forms, email-only, "not currently accepting inquiries."
- **Never a capital raise** — no return claims, no "invest with us."
- **Voice:** disciplined operator — third person on site, first person on Substack.
- **Solo execution** — cadence must survive a full course load.
- **Per-market** — Hillsdale, Cleveland and South Bend are different audiences.

THE FIVE FORMATS

- **Before / During / After** — the rehab arc
- **Operator Notes** — one lesson, plainly told
- **Numbers Without Hype** — real figures, no flex
- **Market Walks** — a street, a thesis
- **Opening Spotlight** — a unit + the bio link

PROOF LIBRARY

YOUTUBE: WHERE SKEPTICS GO TO BELIEVE YOU.

- **1 long-form / month** — 6–12 min, phone footage + voiceover
- **Shorts** cut from the week's reels — free incremental reach
- **Evergreen** — keeps working months after posting, unlike a reel
- **The hub** the IG bio, Substack & email signatures point to

DON'T TREAT THE MARKETS THE SAME

THREE MARKETS, THREE PLAYS.

HILLSDALE, MI

REPUTATION DENSITY

- Smallest market, tightest network
- Show up usefully — the College
- Student & faculty housing trust

CLEVELAND, OH

RELATIONSHIP PIPELINE

- Neighborhood-specific content
- Wholesaler · estate-attorney · CDC ties
- Where direct-seller flow lives

SOUTH BEND, IN

INSTITUTIONAL TRUST

- Notre Dame & healthcare-adjacent
- Transient, high-trust tenant base
- Be the reliable professional operator

THE FUNNEL IS A LINK AND AN INBOX.

A funnel diagram consisting of three stacked trapezoidal sections. The top section is the widest and is labeled 'SEE'. The middle section is narrower and labeled 'TAP'. The bottom section is the narrowest and labeled 'CHOOSE'. The sections are colored in a gradient of brown tones, with the top being the darkest and the bottom being the lightest. The entire diagram is set against a black background.

THE WAYS THIS GOES WRONG

THREE MISTAKES WE WON'T MAKE.

AVOID 01

SOUNDING LIKE A RAISE

- No return claims
- No "invest with us"
- Awareness ≠ solicitation

AVOID 02

GURU GLOSS

- Over-polish kills trust
- Operator proof is the moat
- Phone footage wins

AVOID 03

ONE-SIZE MARKETS

- Three distinct audiences
- Post per market
- Track per market

WHAT HAPPENS NEXT

SUSTAINABLE, MEASURED, ALREADY BUILT.

LIVE NOW

- **/links** hub page — on-site, on-brand
- **GA4 + GTM** events wired & verified
- **Lead Log + Looker** templates ready
- **90-day targets** baked into the review

THE CADENCE

- **Weekly** — 2 reels + 1 carousel, by market
- **Monthly** — 1 YouTube long-form + dashboard review
- **~30 min** of Shavit's time per reel

Warm partnerships. Filled units. Real seller conversations. On autopilot, across every platform.
