

SHAVIT ROOTMAN · MARKETING REVAMP

Facebook, Operated.

Standing up the Facebook side of the house — one page, run out of Meta Business Suite alongside Instagram, built for the people who matter most: your tenants, current and future.

One cockpit — FB + IG together

2–3 posts / week — reputation, not noise

Same brand as shavitrootman.com

A spec to look at, not a plan to read — **Jake Horvitz**, for Shavit Rootman & Charger Property Management

FACEBOOK + META BUSINESS SUITE · DRAFT SPEC

THE TOOL BEHIND IT

One place to run Facebook & Instagram — not two jobs.

Meta Business Suite is the free control room Meta gives every business. We connect your Facebook Page and Instagram to it once, and from then on everything runs from a single screen. You never have to touch two apps, and you never have to be the one posting.

POST ONCE, LAND TWICE

Write a post or drop a reel a single time and it publishes to both Facebook and Instagram — scheduled ahead to the hours your audience is actually online.

ONE INBOX

Every comment and message from both platforms lands in one place, so a prospective tenant asking "is this still available?" never gets missed.

REAL NUMBERS

Reach, engagement, follower growth — one dashboard. This is how we prove the reputation work is landing over the 6–12 month window.

What it means for you: you approve, I operate. You get admin on the page, see everything, and never have to learn the tool — that's my job.

THE "AFTER" — THIS IS THE PAGE A STRANGER SEES

The refreshed Facebook Page.

Shavit Rootman

Property Management Company · Michigan · Ohio · Indiana

[Before & After](#)[Current projects](#)[The team](#)[For rent](#)

Same system as the website and the Instagram remodel — **full state names**, no abbreviations; the reels you already have become the Reels tab; cover swaps seasonally to a current project.

HOW IT STAYS ALIVE WITHOUT BECOMING A SECOND JOB

What goes up, and when.

Same cadence we agreed on — 2–3 posts a week, reputation over virality. Everything is made once and cross-posted, scheduled to the high-traffic window so it lands when people are watching.

PILLAR	WHAT IT IS	CADENCE
Before & After	The signature reveal — a house that came back. Your highest-saved format.	Weekly
Current Projects	What's on the bench right now — 15 E Saint Joe, 60 S Norwood, 43 Howder. Proof it's a live operation.	Bi-weekly
The Standard	The brand film / mission — second-chance housing, done right. Reputation, not transaction.	Monthly
For Rent / Info	An available unit or a tenant-useful note, pointed at shavitrootman.com.	As needed

Timing: posts scheduled for the high window — roughly **11am PST / 2pm EST** — so they hit peak traffic instead of getting buried.

THE ONE POST THAT KICKS IT OFF — ACROSS EVERY CHANNEL

The marketing-revamp announcement.

Draft copy — plain-spoken, from you. Same post goes out on Facebook and Instagram the day we relaunch.

Shavit Rootman

Just now · 

A little news from our side of the desk.

For years the work spoke for itself — houses nobody else wanted, brought back and handed to families who needed them. We never did much talking about it.

That changes now. We're refreshing how we show up online — same team, same standard, just easier to follow along. Expect real before-and-afters, the homes we're working on right now, and an honest look at how we operate.

Whether you rent from us, might one day, or just like watching a place come back to life — follow along. Glad you're here.

— Shavit & the Charger team

Your call, not mine: this is a starting draft in your voice — swap a line, cut a line, make it yours. Nothing posts until you say the words.

TO TURN THIS ON

What I need from you.

Small list. Once I have these I can stand the page up, wire it into Business Suite, and have the announcement staged for your approval.

1

Page access

If a Facebook Page already exists, add me as admin/editor. If not, I'll create it under your account — you stay the owner.

2

The name call

Page as "Shavit Rootman" or "Charger Property Management"? One-line decision — I'll flag my recommendation on the phone.

3

A few photos

A clean wide exterior for the cover, and anything from the current projects. Same portal drop as before works great.

4

Your read on the announcement

Tell me what sounds like you and what doesn't. I'll lock it and stage it — you approve before it goes live.

Then we're live on both platforms, running from one screen, on the cadence we agreed on. **Let's get it right.**
