

01/09

A NEW STANDARD FOR RENTAL HOUSING.

Professionally renovated, professionally managed, and built for long-term ownership, not quick fixes.

BEFORE

02 / 09

WE INVEST WHERE OTHERS WALK AWAY.

Many investors avoid projects like this. We see opportunities to preserve homes, strengthen neighborhoods, and create housing that lasts for decades.

BEFORE

03 / 09

WE FIX WHAT MOST PEOPLE NEVER SEE.

The most important investment is behind the walls. Structural repairs, framing, plumbing, electrical, and insulation come before paint and flooring, because quality starts with the foundation.

BEFORE

04 / 09

THIS WAS A REBUILD, NOT A REMODEL.

Our goal was never to cover up problems. It was to solve them the right way, creating a property that will require less maintenance and perform better for years to come.

AFTER

05 / 09

EVERY SQUARE FOOT COUNTS.

Opening the floor plan transformed how the home feels. Natural light, better flow, and a more functional layout make this 500-square-foot home live much larger than its size.

AFTER

06 / 09

CONSISTENCY IS OUR COMPETITIVE ADVANTAGE.

Every CPM renovation follows the same design standard. The result is a cleaner look, faster maintenance, lower long-term costs, and a consistent experience for every tenant.

AFTER

07 / 09

BUILT FOR DAILY USE.

Large-format tile, quality fixtures, and durable materials were selected because they last longer and reduce future maintenance, not simply because they look good.

NEW FEATURE

08 / 09

AIR CONDITIONING IS A DIFFERENCE YOU FEEL.

Very few rental properties in Hillsdale provide air conditioning.

Our renovated homes feature high-efficiency mini-split systems, giving tenants independent heating and cooling while making the property more energy efficient and desirable.

09 / 09

MORE THAN A RENOVATION.

This project represents our commitment to raising the standard of rental housing in Hillsdale.
Better homes. Better operations. Better communities.

LIVE WITH US. WORK WITH US.
